Jai Chinnakonda is the Founder and CEO of ENGAIZ, a technology company focused on leveraging Artificial Intelligence to help enterprises mitigate Third-Party Risks such as Cybersecurity, Data Privacy, Regulatory, Financial, Performance, Resiliency, Infrastructure, Legal, Country risks through Effective Governance and Engagement.

Through his decades of experience in managing large technology outsourcing deals, Jai brings a unique perspective and advises organizations on third party governance and risk management. He firmly believes in the Art and Science of Engagement to help build lasting and mutually beneficial relationships with third-party vendors.

He is a Certified Third-Party Risk Management Professional (C3PRMP) and a Certified Supplier Management Professional (CSMP). Jai is a member of the Harvard Business Review Advisory Council, an opt-in research community of business professionals. He was also a contributing member to the first draft of The Standard for Program Management released by the Project Management Institute (PMI).

ENGAIZ is a technology Startup that firmly believes that effective Human-Led Engagement powered by AI Driven technologies can help build lasting and mutually beneficial relationships with third-party vendors. We call this the *Art and Science* of Engagement.

We have a two-fold mission:

- to help enterprises effectively govern and engage third-party vendors to mitigate risks, control cost, drive service excellence and innovation
- to help third-party vendors move from being a mere vendor to a trusted partner

Our company has built an AI-Driven SaaS platform to help Enterprises mitigate Third-Party Risks such as Cybersecurity, Data Privacy, Regulatory, Financial through an effective Governance and Engagement framework.
